

LITTLE LEAGUE PITCH COUNT

2026 Baseball Quick Guide - simple numbers for coaches, scorekeepers and parents

MAX PITCHES PER DAY

LEAGUE AGE	MAX PITCHES	LEAGUE AGE	MAX PITCHES
6-8	50	9-10	75
11-12	85	13-16	95

At the daily maximum: the pitcher may finish the batter they are currently facing, but may not start another batter.

REQUIRED REST - LEAGUE AGE 14 & UNDER

PITCHES THROWN	DAYS REST	EASY REMINDER
1-20	0	May pitch the next day
21-35	1	One full calendar day off
36-50	2	Two full calendar days off
51-65	3	Three full calendar days off
66+	4	Four full calendar days off

Important: A player may not pitch on three consecutive days.

THE THRESHOLD RULE - THE PART MOST PEOPLE ASK ABOUT

Use the pitch count when the pitcher STARTS the batter. If the pitcher reaches a rest threshold while facing that batter, they may finish the batter and keep the lower rest requirement - provided they are removed before throwing a pitch to the next batter.

EXAMPLE

A league-age 12 pitcher starts a batter at 34 pitches and finishes at 39. For rest purposes, the pitcher keeps the 35-pitch threshold, so 1 calendar day of rest is required.

PITCHER / CATCHER RULES

PITCHER TO CATCHER	CATCHER TO PITCHER
If a pitcher delivers 41 or more pitches, that player generally may not catch for the rest of that day. The 40-pitch threshold exception can preserve catcher eligibility when applied correctly.	A player who catches 4 or more innings in a game is not eligible to pitch on that calendar day.

MANAGER REMINDER

The official pitch counter should track every pitch, but the manager is responsible for making sure a pitcher is removed before becoming ineligible. Pitch limits are maximums, not goals - fatigue and arm health always matter.

Quick-reference only. Always verify the official 2026 Little League rulebook and any local or tournament rules in effect.
